

# CCN07 - Supporting Physical Health and Wellbeing Policy

---

1. Health inequalities are avoidable, unfair and systematic differences in health between different groups of people. People with learning disabilities and adults with mental health conditions can experience health inequalities during their life. In addition, specific characteristics including those protected in law, such as sex, ethnicity or disability, face an inequality in health.
2. Eaglesvale Care will ensure that staff are knowledgeable, competent and aware of health inequalities and how they impact Service Users.
